During the three and half years of Texans for Medical Marijuana's existence approximately 8,000 Texans signed a petition, which called on state legislators to enact a medical marijuana bill for Texas.

The organization ceased operations in May 2007. For current information and ways to be involved in state and federal marijuana policy work please visit Marijuana Policy Project at www.mpp.org. MPP pursues its work along two parallel tracks — making marijuana medically available to patients in need and taxing and regulating marijuana for general adult use.
