

Texas Editorials

Editorials from newspapers across Texas. Texans for Medical Marijuana was a statewide grassroots organization that began in January of 2004 with a mission of changing Texas law to protect medical marijuana patients from arrest and incarceration.

The organization ceased operations in May 2007. For current information and ways to be involved in state and federal marijuana policy work please visit Marijuana Policy Project at www.mpp.org. MPP pursues its work along two parallel tracks — making marijuana medically available to patients in need and taxing and regulating marijuana for general adult use.
